

ADIPS - Novo Nordisk Research Grants 2021

The ADIPS - Novo Nordisk Grants for Clinical, Scientific or Education Research:

Two grants of A\$10,000 to be awarded

These grants are encouragement awards in the field of Diabetes in Pregnancy. They are funded with equal contributions from ADIPS and Novo Nordisk Pharmaceuticals Pty Ltd. They may be suitable for pilot studies but are not intended to fund large scale projects or salaries. Priority will be given to new investigators, novel submissions, and proposals which are not additional studies within existing funded projects. It is expected that projects will be completed within one year and that the successful applicants should undertake to present their findings at the ADIPS Annual Scientific Meeting in the following 1–2 years.

The applicants must be financial members of ADIPS. Check your membership is current or join now on the ADIPS website at: www.adips.org

Submissions should be of no more than 2 pages. They must indicate:

Title	Grant Category
Investigators	Project details
Institution and contact	Significance of the project

In addition, the following questions need to be answered:

- Is this proposal a component or sub-study of a larger project with existing funding or where funding from another body has been sought?
- Name of the administering body.

Enquiries and Grant Applications to:

Ms Suzie Neylon, ADIPS Executive Officer E: sneylon@adips.org

The successful applicants will be notified by the end of September 2021 with funding available for projects to commence in January 2022.

Submission closing date is Monday 30th August 2021.

The 2021 ADIPS-Novo Nordisk Research Grants are generously co-sponsored by Novo Nordisk Pharmaceuticals Pty Ltd.
