

A₁IPS AUSTRALASIAN DIABETES IN PREGNANCY SOCIETY

STRATEGIC PLAN 2025

OUR VISION

To pursue excellence in clinical & public health outcomes and experiences relating to diabetes in pregnancy

OUR ROLE

In all aspects relating to diabetes in pregnancy and its impacts across the lifecourse is to:

- Facilitate sharing of clinical and scientific knowledge with health professionals
- Promote the conduct of excellent research and clinical quality improvement activities
- Develop and disseminate evidence-based clinical recommendations and guidelines
- Foster collaboration and networking between interested professionals and relevant societies and organisations within our region and internationally
- Support the wellbeing of people living with diabetes through:
 - listening to their perspectives and priorities,
 - public advocacy,
 - advice to regulatory agencies and policy makers, and
 - development of educational materials.

OUR VALUES

- Respect
- Diversity & appropriate representation
- Collaboration & partnerships
- Good governance & processes
- Purpose-driven
